Basketball League

In preparation for the opening of the summer sports season, a local Basketball League has been formed, which will include the clubs at Garden Valley, Comet, the local Walther League and Stony's, with the possibility that the club at the Grove will unite. The boys have taken to the game in earnest, which at one time was engaged in by girls only. There will be girls' divisions in the new league. Stony's club held a meeting the evening following the formation of the new league, and elected Ph Enders Pres., and W Rosnan Sec.-treas. A committee of the captains of the various clubs will shortly meet to arrange a schedule of games.

Inga Councillors Meet

Inga Councillors met last week in Stony Plain, for their inaugural. There were no new faces at the board, as the three old councillors had been re-elected at the recent contest. Councillor R Goetz was elected Reeve, in succession to R C Howan. The question of retaining the services of Secretary Pidgeon was disposed of in short order when it was found that four councillors were in favor of him being retained. Several accounts were passed and ordered paid, after which Council adjourned.

Funeral of Mrs Emilie Ulmer

Mrs Emilie Ulmer, an old time resident of this district, passed away at her home on Wed. March 12, at the age of 57 years. Deceased had been a resident of this district for the past 36 years, having come here in the year 1894. She is survived by 2 daughters, Emma and Marguerite; 3 sons, Frederick, Emil and Ludwig. The funeral service was held Friday afternoon at her late home and a service at St Matthew church (Missouri Synod, with Rev E Elberhardt, the pastor, officiating.

Trophy for the School Fair.

To encourage the building up of district school fairs, the Edmonton Exhibition Ass'n offer a challenge trophy to be competed for at each of the ten school fairs held within a radius of 40 miles from Edmonton in 1930. The fairs affected are: Leduc, Tofield, Clover Bar, Stony Plain, Fort Saskatchewan, Legal, Morinville, Miller, Onoway, Sturgeon.

This should give our teachers some encouragement to revive the local School Fair, which at one time was so popular.

The 1930 New Ford.

Stony Plain Motors have received another consignment of the 1930 new Fords. The shipment was made up of sedans, coaches and a coupe. This latter was bought by Councillor O G Wudel for use in his business. Two other cars of the shipment were sold when unloaded.

Reform Of The Calendar

The subject of reform of our present calendar is receiving increasing attention throughout the world. What was once regarded as more or less of a faddist's idea is now seriously regarded by hard-headed business men and Governments as a meritorious suggestion. As a result, the proposal has reached the stage where the League of Nations has set up a commission to deal with the question, and Governments the world over have appointed influential committees to study the merits of the various schemes proposed. So convinced are many large business corporations of the advantages of a thirteen-month calendar that they have adopted it, temporarily at least, as the basis for their internal accounting and statistical comparisons.

Hundreds of different plans were submitted to the League of Nations commission. These have been narrowed down to two or three for submission to the Governments of the world for consideration. The plan which seems to find the larger measure of approval, and has already been endorsed by the United States National committee, is the work of a Canadian, Mr. E. Cotterworth, of Vancouver. Briefly, the plan is to divide the year into thirteen months of twenty-eight days each; to have each week, each month, and each year begin on the same day; to have a new month, "Sol," come between June and July. This provides for 364 days, and it is proposed that the extra day be taken care of by including a holiday, to be known as "Year Day," between Saturday, December 28, and Sunday, January 1.

In the proposed calendar, each of the thirteen months would be uniform, as follows:

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28

Among the advantages claimed for this simplified calendar are, from a business point of view, that it will allow of definite and accurate comparisons between one year and another, and between the months, weeks, and even days of one year and those of another, that it will simplify the computation of interest, each month being the same length, and it will also simplify other business calculations, payrolls, for example.

All holidays will fall on the same day each year. So will a person's birthday, or wedding anniversary. Christmas would always be on a Wednesday. "Year Day" would be a holiday between the old year and the new, and the new year would always begin, appropriately, we feel, on a Sunday.

Opposition to the proposed change comes chiefly from the churches and religious organizations, notwithstanding the historical fact that our present calendar was a change from previous calendars sanctioned by the head of a religious organization. The churches do not wish to have their feast-days, fast-days, and holy-days disturbed, even though now they are irregular and as varying as other days in our present calendar.

Our present calendar is the outgrowth of centuries of disputes and jealousies. It is a logical as were these old differences. For example, the only reason February has only 28 days, as compared with 30 and 31 in the other months, is the jealousy of one Roman Emperor of another because the month named after the former had one day less than the month named after the latter, so he took a day from February and added it to month named after himself, thus giving it the same number of days as the month named after his rival.

The Bible records that the Creator made the world in six days and rested on the seventh, or Sabbath day, and in the Ten Commandments we are enjoined to "Remember the Sabbath day to keep it holy." In later centuries, a church ordered that the first day of the week and not the seventh should be observed as the holy day, hence our present Sunday. But Jews and Seventh Day Adventists adhere to the seventh day. Christmas day was a matter of bitter dispute among the churches for nearly 2,000 years before December 25 was finally accepted. But it is not so recognized in some countries even yet. The new year begins at varying times in Russia and China, as compared with other countries.

The fact is, and in consideration of the present subject of reform it should not be overlooked, that the calendar is wholly man-made. There is nothing sacred about it, just a convenience in the regulation of our every day affairs. That it should add to its convenience if it were more uniform and logical goes without saying.

The Simplon tunnel through the Alps is twelve and one-half miles long.

Rats are not native to America, having come to this continent on ships.

Dentist—"Where is the aching tooth, located?"—"Balcony. Girl (a theatre usher)—"Balcony, first row to the right."

Yesterday, was a fact, today is a reality, but tomorrow is fictitious.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines feel like a burning fire. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful acids will never appeal to you. Go and prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Germany's Tribute To Late Foreign Minister

Name Of Historic Street Is Changed To Stresemann

The name of a great German military victory has been erased from the street map of Berlin to make room for a tribute to the memory of a peacemaker of modern Germany—the late Foreign Minister, Dr. Gustav Stresemann.

Königsgratzer Street, which for more than half a century has reminded Germans of the defeat of Austria in the battle of Königsgratz, has been changed by official decree to Stresemann Street.

The thoroughfare is familiar to many travellers as the street on which two of Berlin's principal railway stations face.

SUFFERED FOR YEARS FROM RHEUMATISM

Regained Health Through the Use Of Dr. Williams' Pink Pills

Rheumatism is a disorder of the blood—caused by too much uric acid in the blood—and must be treated through the blood. It attacks its victims when vitality is low, thus setting up inflammation in the muscles and joints. Wet and cold weather may start the tortures of rheumatism, but it is not the cause. The cause is the blood—bad blood. Enrich and purify the blood and rheumatism will disappear. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills and see how soon the pains and stiffness will disappear. These pills enrich and purify the blood and good blood means good health.

Mrs. John C. McPherson, St. Mary's, Ont., was a victim of rheumatism for years and writes as follows of her illness and recovery. She says:—"I suffered from rheumatism for nearly sixteen years and for eleven years I was unable to walk. I tried a number of medicines as well as massage and chiropractic treatment without any permanent benefit. I was then so bad that I was at a loss to know what to try next. I noticed in different papers how strongly Dr. Williams' Pink Pills were recommended for cases like mine so I decided to try them. After taking several boxes I noticed that my appetite was improving. The pains became less severe and my color improved. I continued their use and now I am able to do light housework. I wish I could impress on all rheumatic sufferers just how these wonderful pills have done for me."

Dr. Williams' Pink Pills do one thing but they do it well—they enrich and purify the blood. This rich red blood banishes such troubles as rheumatism, sciatica, neuralgia and neuritis and leaves the former sufferer robust and healthy and well able to take his or her place in doing the duties expected of them. The pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wage War Against Cancer

Province Of Saskatchewan Taking the Lead in Combating Scourge

With Saskatchewan about to take the lead in all Canada in the fight being waged against cancer, setting up two main clinics, one in Regina and one in Saskatoon, and purchasing radium to the value of \$120,000, just a few statistics on the disease may be of interest.

In Saskatchewan cancer ranks fourth in the list of diseases that cause the most deaths. Tuberculosis, once far up in the list, is now far down and Saskatchewan is credited with having the lowest mortality rate from tuberculosis of any part of America.

The leader as the cause of deaths is heart disease. Still births came second. Pneumonia ranks third and cancer fourth. The fifth on the list is accidents at birth and accidental deaths of all kinds are placed sixth.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

The Chinese peanut crop, which now exceeds the American production, had its beginning in four quarters of American peanuts taken to China about forty years ago by a missionary.

Use Minard's in the Stable.

W. N. U., 1829

Activity In Land Sales

Land and Townsite Department of the C.N.R. Reports Satisfactory Year

Satisfactory reports concerning last year's business were submitted at the annual meeting of field men and other representatives of the Land and Townsite Department of the Canadian National Railways, and which was presided over by Mr. E. A. Field, Land Commissioner. Representatives were present from the three prairie provinces.

Land sales last year, in spite of prevailing conditions, were reported to be fairly good in comparison with previous years and due payments, both capital and interest, were well met on the whole, so that there was reason to be well pleased with the general situation.

The majority of those who bought land were resident farmers who were extending their operations or making provision for their sons.

Last year ten new townsites were opened, principally in Central Saskatchewan, and thirty-one others have been surveyed and will be opened during the current year. The building of new lines has attracted numerous farm settlers and a large amount of new land is being brought under cultivation.

Lodger (excitedly): "Just think, Mrs. Migs—In 12 short months from now she'll be mine."

Landlady: "Who, Mr. Smith? I didn't know you 'ad a young lady."

Lodger: "No, no—my two seater!"

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

A Doubtful Apology

A youth from the city was walking across a country field when an enraged bull rushed at him and tossed him over the fence.

Painfully picking himself up, the young man looked through the fence and saw the bull pawing the ground. He shook his fist at the angry animal and said:

"If it were not for your howling and scraping and apologies, you beast, I should think you'd pitched me over the fence on purpose!"

Minards—50 Year Record of Success.

If the Naval Conference can disarm suspicion the rest will be easy.

The value of perfect diamonds is exceeded by flawless emeralds of equal size and weight.

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The sane and harmless way. First correct the cause, soothe the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red packs.

Canada's Name Perpetuated

Announcement was made that the Pont des Invalides, Paris, has been renamed Pont du Canada. The Pont des Invalides is one of the best known bridges crossing the Seine in Paris, leading to the famous Place des Invalides. The bridge was built in 1827 and restored in 1855.

Rheumatism

Minard's relieving the aching parts with Minard's brings comforting relief. Try it.

Losing the Art

According to John Curran, of the Soo Star, who has been having a winter vacation in Michipicoten, "very few Indians can swim and are slow about taking chances away from shore." This must come as a surprising news to many, and one wonders if it is true only of present day Indians, but not of their forefathers, who must have had "many rivers to cross" and scarcely any bridges.

Here It Is

And beats them all for treating sore throats, cough, croup, bronchitis, quinsy, whooping cough, croup, and cold troubles. "Mrs. Sybil Spahr's Tonsillitis." It's guaranteed to cure. Try it. \$1.50 post paid. Agencies wanted. KITCHENER, ONTARIO, CANADA.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appelford's "Centre Pull." Packs in sheet form.

Prairie Province Home Makers Making Greater Use of Trees and Shrubbery To Adorn Abodes

Of increasing interest are the steps taken by thousands of farm and town home makers in the Prairie Provinces of Canada to adorn the landscape around their abodes. The Dominion Experimental Station at Morden, Manitoba, where horticultural projects are the major feature, has paid considerable attention to landscape treatment.

Nature is a reliable guide. She gives many trees, shrubs, vines and herbs of charm, and in considerable variety. These are reliable, being aboriginal, and are, therefore, hardy and adaptable. Some of them, such as willows and alders, thrive in low, damp places; others, such as junipers, silverberry, buffalo-berry and aspen poplar, do well in dry, exposed, sandy places, and most of them live and thrive on normal level prairie-land, especially when sheltered. Tree growth is mostly in bluffs or small islands, and undergrowth in and about these tree patches tends to be attractive throughout the changing year.

The shrubs forming the accompaniment of poplar, willow, box elder, green ash, oak and elm, make a considerable list. Some have their greatest beauty in the spring when the bloom is on them; others are prominent in summer because of their foliage or bright fruit. Prairie roses, on account of their flowers and brilliantly coloured foliage, are much in favor; and a few, such as red dogwood, have a rich, colorful effect all through the winter.

Some discussion has taken place on the subject of lines or forms. The general contour of the prairie is of horizontal and gently rounded lines. The horizon, the shrubbery, the poplar bluffs, and other natural phenomena are mostly of this description. To attain and retain harmony, it is well to employ as much as possible material that carries out local requirements and motives. Some people bemoan the fact that Lombardy poplar, with its narrow, cylindrical pole-like contour, is not generally hardy. Its unsuitability, however, may be a blessing, as such figures on the flat, open plains are certainly foreign to the scene. On the other hand, trees with spreading, horizontal branches, such as many of the hawthorns, viburnums, native plum, sand cherry, red elder, rural willow, smooth sumach and common juniper, are of suitable prairie form. Shrubs with flat, umbrella-like blooms, such as pin cherry, dogwood, some aspens and mountain ash, are of merit in accentuating local contours and scenes.

Nature shows the more tender material in sheltered spots. Native plums, which would be badly wrecked by winds when heavily laden with fruit, are found in ravines along the banks of streams, and in moist woods. A family of hackberry, probably developed from seeds brought by birds from 400 or 500 miles south, are doing well at Delta, and include some large and beautiful trees. It should be remembered, however, that this little colony grows in a favoured spot on the southern shore of Lake Manitoba. The sugar maple at Fort William is also found on sheltered hillsides.

The Morden Experimental Station has, since 1924, developed many pleasing views and attempted to retain a prairie style of landscape. The bluff or tree island idea is maintained, and an attempt made to have each patch distinctive from its neighbors. The absence of color, so evi-

dent on much of the prairie landscape from October until May, is overcome by planting on capes and bays of the tree islands material with bright colorful bark, and shrubs, such as Russian and thorn, buffalo-berry, red cotoneaster, Siberian crab, red elder, sumach, mountain ash and roses, which support brightly colored fruits well on towards the spring. Evergreen conifers are used generously to supply greenery and to give life to their surroundings. The result is attractive and pleasing "winter gardens."

Shrubs are used in patches rather than as individuals. Willows with vivid bark are grown in coppice form, being cut back to stubs each May. This gives vigour of young growth which has the greatest intensity of twig color in winter. The ural willow so treated adds a purple tinge and is distinctive. Herbaceous plants may be used to good effect in bays of shrubbery, and an excellent assortment of adapted perennials is available. The Siberian squill is in bloom in April and sequence is secured until late autumn. New England asters finish blooming in October.

The history of the development of tree planting in the Prairie Provinces is interesting. In 1901, when settlers were making their appearance in considerable numbers, the Federal Government introduced its policy of tree planting. A nursery was started at Indian Head, in Saskatchewan, with the object of providing farmers with trees to plant around their homes.

Later, when the Canadian Pacific Railway started another nursery at Wolsley in the same province. Those in charge of the two nurseries then set out on the formidable task of teaching the settlers how to beautify the prairie landscape. Maple, ash, caragana, poplar and willow were grown at the nursery farms from seed, and an undertaking was given that all farmers making application would be supplied. At first the response was slow, only 20 farmers being supplied during the first year of the nurseries' existence.

As settlement increased, however, both the Government and the Canadian Pacific Railway began to realize the full possibilities of their enterprise, and the establishment of the nurseries was followed up by an active campaign of propaganda. Demonstration cars with lecturers were sent out to preach the benefits of tree planting. Thus the movement gained impetus.

A Matter Of Comparison

Exactng Position, Seems To Command Inadequate Salary

That the prime minister of Canada should be getting \$10,000 a year less than the chairman of the Ontario Liquor Board, \$60,000 a year less than the presidents of our railway companies, and about \$40,000 less than the mayor of New York, is little less than absurd. And so with our minister of finance.

The finance minister of Canada holds, without exception, the most exacting and responsible position on this half of the North American continent. Yet for this post, a post where so far as brains and integrity are concerned, the sky should be the limit, we pay \$12,000 a year. Pay less than is received by many subordinates in the direction of scores of our industries. —Ottawa Journal.

Had Good Proof

Francis P. Garvin, the famous scientist who has been awarded the institute of chemistry's gold medal, said at a luncheon in Washington: "Sir Arthur Conan Doyle and Sir Oliver Lodge believe in spiritualism, but the arguments they back up their belief with aren't very scientific. They remind me of Walsh White."

"Do you believe the dead ever walk, Washington?" said the general storekeeper.

"Dead ah does," said Washington.

"What proof have you got?" the storekeeper asked.

"Good proof," said Washington. "Did you never hear, boss, of de 'Dead March'?"

A farm woman's working day is estimated to range from eighteen to fifteen hours.

J. S. MCGOWAN,

Manager of the Colonization and Agriculture Department of the Canadian National Railways in Western Canada, who has been appointed Assistant Director of the same department, with headquarters in Montreal.

The Price Of Progress

Machine Age Has Brought Many Casualties In Industry

Many people will be aghast at the casualty list in industry. Nearly half a million persons were killed and injured in a year, and nearly \$8,500,000 was paid in compensation in seven large industries. This is the price exacted by the machine in return for great advantages which it has brought. The comfort and variety of life for the average man and woman have enormously increased with the arrival of the machine age. In addition, every insurance company testifies that the machine which in some instances maims and kills actually prolongs life as a general rule. The average person lives several years longer than his grandfather lived, and the "expectation of life" was never as high as today. —London Sunday Express.

Nihau, most remote of Hawaiian islands, boasts a population of 120. There are no radios, no automobiles, no dogs. Prohibition of liquor has been in force sixty years. Tobacco is likewise banned. There are no jails. Every resident is a church member.

"Ere George," cried a navy to his mate, as they passed a lecture hall, where an address on "The Era of Cleanliness" was announced. "Let us go in and hear what the bloke's got to say. I always thought it was an error myself."

Only three per cent. of all Norway is suitable to agriculture.

Owing To Wide Areas Few Countries Better Adapted To Benefit By Air Mail Than Canada

Grading Helps Canadian Wools

Has Had Excellent Effect On Improving Annual Clippings

Canadian wools are now recognized both at home and in outside importing countries as possessing highly desirable qualities. Since wool grading became a general post several years ago, buyers have learned to look to Canada for supplies of the various desired grades which they have learned to accept with confidence.

Hon. Dr. W. R. Motherwell, Minister of Agriculture, in his report for the past fiscal year states that a little less than three and one-half million pounds were graded that year, which was slightly more than in the previous twelve months.

Wool grading has had a very good effect on improving the annual wool clip and its preparation for market. The fleeces as they are now received at the storages are said to be well sorted and dried, and show a very small percentage of rejects or low grade wools. During the year reviewed by the Minister, western range wools were stronger of fibre and lighter of shrink than usual. Domestic wools when graded give excellent satisfaction to the Canadian and United States, and continental European buyers.

Finds It Good Business

California Oil Company Employs Elderly Men In Filling Stations

An oil company in California employs almost exclusively men above 60 to run its filling stations. The management is reported to consider the employment of older men good business and not philanthropy. It finds them "more courteous to customers, more careful in their care of the stations, with more pride in their work, and more reliable than younger men." This is a report of interest in a day when men past 50 find employment hard to get, and it may be a hint for other owners of filling stations—many of which are run by boys.

"John," said Mrs. Dumbbell, "I didn't know they had electric refrigeration in the banks."

"They don't," where did you get that crazy idea?" he demanded.

"Well, then, how do they get those frozen assets that banker was talking to you about?" she asked.

Putting Farm Work Horses In Condition

Progress in farm field work in the coming months depends largely on the condition of the work horses. Soft from the winter's rest, farm work horses require conditioning just as an athlete requires training for his best.

Every farmer knows that two or three weeks spent in a gradual toughening and conditioning of a horse for the heavy work is more than made up before the season of heavy field work is over. Not only does this conditioning include breaking them in to the long hours of hard pull that they must undergo, but applies as well to breaking them into a working ration.

It is poor practice to allow a horse to pasture on much new lush grass if he is to go on a strenuous work schedule. A little grass is good for him, helps to condition him, but he must have oats, bran or old corn, or still better a combination of the three and good sound hay. These are the best possible rations in the spring and early summer. The horse that is fed a major ration of grass soon gets soft, sweats profusely, lags and quickly plays out. Oats, bran, corn and hay will give him stamina and leave him

in the best condition at the end of the day.

By treating old Dobbin fairly, getting him ready for spring work with daily exercise, keeping him thoroughly groomed, especially well shedding, and a work ration instead of his winter feed will pay big dividends in a short time.

If the horse takes a long time to shed his coat, this can be facilitated by thorough, frequent grooming and if this does not do the work, a clipping all over will get him through the shedding period quickly. After the horse has started to work in the field, it is advisable to bathe the shoulders and neck two or three times daily with cold, soft, salty water with white oak bark tea which toughens and cleanses the chafed parts.

A prominent veterinarian states that excessive sweating is remedied by clipping the horse. Excessive sweating weakens the animal and it is doubtless quite advisable to clip him to relieve this condition. It is also true that this practice enables the horse to be thoroughly groomed in much less time than when it retains its long winter coat of shaggy hair.

Additional air mail service was inaugurated between Winnipeg, Calgary, Edmonton, on March 3rd, 1930, by the Canadian Post Office Department. This leaves only the territory between the Rocky Mountains and the Pacific Coast, and from Western Ontario to Winnipeg, unserved by air mail. It is anticipated that at least a portion of the latter territory will be linked up during the coming summer, and the remaining portions will be covered as soon as the necessary survey and ground-work can be carried out. This will take some time as the equipment of flying fields and the installation of lighting arrangements must be done to the last degree of thoroughness. Air mail routes already in operation in Canada extend from Moncton, New Brunswick, to Windsor, Ontario.

During 1929, the spectacular and entirely successful inauguration was made of the world's Farthest North Air Mail Service, extending seventeen hundred miles from Fort McMurray, near Edmonton, Alberta, down the Athabasca and Mackenzie Rivers to Aklavik, more than three hundred miles beyond the Arctic Circle. The value of such service in remote areas can readily be imagined.

To the settlements along the North Shore of the Gulf of Saint Lawrence and on the island of Anticosti and the Magdalen group, the mail "planes have flown during the present winter with impressive regularity, once more demonstrating the special value to Canada of this form of mail transportation.

The Canadian Air Mail Service was started in December, 1927, with a total mileage of 367 and three scheduled trips per month. The mileage has since grown to nearly 6,000, and the monthly trips to over four hundred and thirty. The efficiency maintained is well over ninety per cent.

Few countries are better adapted to benefit by air mail services than Canada. Widely separated cities, scattered populations, distant mining areas, difficult modes of access, all calling into existence more and more services of this nature.

Although the rapid development of the western provinces has been such as to make seem remote the pioneer days before the "laying of steel," actually it is only fifty years since mail transportation west of Winnipeg was of a very primitive nature, in keeping with other conditions in what was then a frontier territory.

In 1890 the mail service between Winnipeg and Edmonton was carried out about once in three weeks by horse or dog team. About twenty-one days were required for the trip in each direction. The service between Winnipeg and Calgary was carried out on a similar schedule. To those persons, and there are still many living, who can recall those early days of fifty years ago, the new air mail service is a revelation of progress. The new schedule calls for a nine hour service between Winnipeg and Calgary, and 5½ hours from Regina to Edmonton, this latter route connecting with the Winnipeg-Calgary one. Both of these new routes, totalling in all 1,126 miles, are lighted and are the first in Canada to be so equipped.

Savings in time of delivery over the present fast train service of from six to 42 hours, depending on the destination or the mails, are promised.

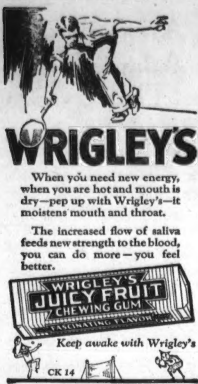

One person in every 200 in the United States is said to be deaf.

"She told me to buy fish and oil, so I'll get a sardine tin of sardines and I can keep the change." —Pages Gales, Yverdon.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Frederick A. Cook, physician-explorer, has been freed from the Federal Penitentiary Leavenworth, Kansas, on parole.

Rear Admiral Richard E. Byrd and members of his Antarctic expedition, arrived at New Zealand aboard the barque "City of New York" after spending more than a year on the ice barrier of Ross Sea.

There are 22 people in Canada afflicted with the horrible disease of leprosy. Eleven of them are in Tracadie, N.B., and 11 are on Bentick Island, near Victoria. All are wards of the Canadian Government.

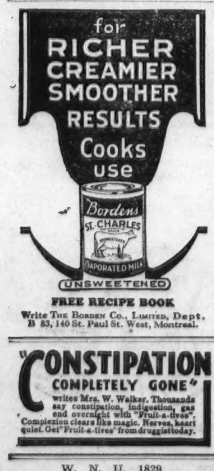

Government of Manitoba will ask representation on the Lake of the Woods control board, as soon as the natural resources transfer is completed, according to Premier John Bracken. Ontario and the Dominion are now represented on the board.

Lifting by the Canadian Government of the embargo on English and Scottish cattle, announced in Ottawa, was much welcomed in London, England, the decision enabling the execution of long standing orders for these cattle.

Passenger service will not be inaugurated over the Western Air Mail route for at least a month, according to W. L. Brinnell, operating manager of Western Canada Airways. The W.C.A. organization holds the prairie air mail contract.

Canada looks forward to the development of a fleet proportionate to the growth of seaborne trade in the Dominion, declared Commander Richard L. Edwards, R.N., director of naval intelligence, Department of National Defence, Ottawa, in an address at Montreal.

The world's longest newspaper route is in Yellowstone Park. During the tourist season from June to September between 600 and 800 papers are distributed daily over the 160-mile route.

Canada Preparing To Receive Dirigible

Everything Will Be In Readiness When R-100 Arrives

The Canadian arrangements for receiving the R-100 will be in readiness when the big dirigible arrives, G. J. Desbarats, Deputy Minister of National Defence, stated. The mooring mast at St. Hubert, near Montreal, is completed, and work is going ahead on the other facilities. The huge supply of hydrogen which the ship will require has to be provided, a plant for producing the gas and gasometers to hold it, have to be installed. Another important provision is a water supply, for the dirigible will take on great quantities. It will have to be pumped to the top of the 200-foot tower.

Leut. Pressy, of the Canadian Navy, and several petty officers are at Cardington now receiving instruction in mooring operations. They will return to Canada early in April to train the ground men who will assist in mooring the R-100.

Winnipeg Newspaper Union

(By Anabelle Worthington)

A purply blue crepe Elizabeth that is smartly simple. It shows exquisite taste for afternoons, dinner or Sunday night occasions.

The scarf is caught with novel crystal buckle at center-front and falls softly over shoulders with flying ends at back.

The flat hips are encircled in girdle that is shirred at either side and at the center-front, which makes the garment beautifully to the figure.

The circular skirt is shaped with a fitted hipline with a gradual widening toward hem, which shows a decided rippling fulness.

It's a model that is easily adjusted to suit the average figure. The skirt is in two sections. It is seamed at sides and joined to the two-piece bodice. The dress is now ready to set sleeves into armholes, stitch collar at neckline and girdle at waistline.

Style No. 3312 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

For more conservative wear, choose one of the new printed crepe silks that may be worn all through the Spring; or black silk crepe.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Fashion Department.

Requires More Advertising

English Potato Growers Decide To Launch Publicity Campaign

As the result of consultation with the Ministry of Agriculture, English potato growers have decided to launch a publicity campaign to popularize their products.

We are to be urged to "Eat more potatoes," just as we have been implored to consume vast quantities of fruit and to stay ourselves with flacons of milk. And why not? The potato is an admirable article of food and its largely increased consumption would be of immense benefit to British agriculture.

It is 400 years since Raleigh brought the potato and tobacco to England. But while our consumption of the latter—thanks to the huge advertising campaigns of the tobacco industry—has grown to an extent that Sir Walter could not have dimly imagined, the potato has been allowed to languish in obscurity. —London Daily Sketch.

FAINT, DIZZY SPELLS

Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salesbury, N.B., writes: "I was troubled with faint and dizzy spells and when I would lie down and sleep I was terrified with something else. I got so bad I had to sleep propped up in bed."

"My doctor said it was my heart and nerves, and that I needed a good heart tonic."

"I was advised to take MILBURN'S HEART AND NERVE PILLS."

and I had not taken one box when I could lie down and sleep like a normal."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Building Boom On Prairies

Over Hundred Million Spent In Provinces During Last Year

The tremendous development which is now under way in the prairie provinces of western Canada is indicated by the building figures for 1929, just made available. A total of \$101,500,000 in contracts was awarded during the year in the provinces of Manitoba, Saskatchewan and Alberta, this being an increase of \$37,468,300 over the 1928 figures.

The province of Manitoba led, with \$38,156,500 in awarded contracts. Saskatchewan was next with \$34,184,300, and Alberta third with \$28,159,600.

Persian Balm—the delight of dainty femininity. Imparts a fragrant charm to the complexion. Tones up the skin and makes it velvety soft in texture. Cooling, refreshing, it is delightful to use. Never leaves a vestige of stickiness. Invaluable for hands, face, and as a hair fixative. Wonderfully soothing and protective. Especially recommended in cases of roughness or chafing caused by weather conditions.

Proves His Claim

A senior in the law school of the State University, at Norman, Oklahoma, claims to have eaten two cows.

His claim is based on the fact that during his time in the university, he has eaten four hamburgers a day, or a total of 1,620 pounds of cows—two cows, he says.

India has twelve rivers held sacred by the natives.

Definition of a great city—Millions of people being lonesome together.

SUNDAY SCHOOL LESSON

MARCH 23

JESUS TEACHING AND HEALING

Golden Text: "Ask, and it shall be given unto you; seek, and ye shall find; knock, and it shall be opened unto you."—Matthew 7:7.

Lesson: Matthew 13:23 to 13:12.

Devotional Reading: Psalm 119:33-40.

Explanations and Comments

Faith Tested and Triumphant, 15, 21-28.—To escape the hostility of the Pharisees and of Herod, and to secure rest for Himself and His disciples, Jesus left Galilee and went northward into the neighborhood of Tyre and Sidon. From that region a Canaanite woman came to Him. Mark (7:26) calls her a Syrophenician, a Phoenician, or a Tyrian. Both terms, Canaan and Phoenicia, were sometimes used to denote the coast lands of Palestine. People from Tyre and Sidon had seen His miracles in Galilee (Mark 3:7, 8), and from them she may have heard of Jesus power. Addressing Him as "O Lord, thou Son of David," she besought Him to cure her daughter who was tormented with a demon.

"Did she think to commend herself by the name of address? Was it the least bit insincere? Did it amount to something like an attempt to sail under false colors? For she was using a title which meant nothing to her, taking up ground in her appeal to Him to which she really had no right. If this was so, it may partly account for our Lord's seeming harshness in so dealing with her that she might be led to rest her suit upon a truer ground. Those words of His that follow would bring home to her her mistake in addressing Him as the Son of David."—P. G. Chalmers.

Prostrating herself at Jesus' feet, the woman cried, "Lord, help me!" It was her daughter who needed help, but she identified herself with her child, as is the way with mothers. The cure of her daughter would help the mother more than anything else, for she loved her child more than she loved herself. "It is not fitting to take the bread from the children (the Jews), and cast it to the dogs (the Gentiles), said Jesus."

"O, yes it is," she eagerly replied, "for even the dogs eat the crumbs which fall from their master's table." And a Gentile, may rightfully have what will be no loss to the children of the Jews. "She catches Him in His own words," observes Luther. Then came the longed for words of help, coupled with words of praise.

"O woman, great is thy faith; be it as you wish." And her daughter was healed from that hour.

"Not Him crucified and slain, Not in agonies of pain, Not with bleeding hands and feet; Did the Monk his Master see? But Him in the village street, Halt and lame and blind He healed In the house or harvest-field, When He walked in Galilee." —Longfellow.

Russia Declares New System Works Well

Non-Stop Working Week Has Been Generally Inaugurated

Sundays no longer exist in Soviet Russia as regular days of rest. The seven-day "non-stop," working week, which allows one group of workers to rest one day in every five, while another group is carrying on their work, has been inaugurated in almost every institution, bureau, factory, museum, school, factory, mine and retail shop, and will soon be introduced in theatres, newspapers and hospitals.

This system, which divides the 24 hours into three different working shifts, has enabled the government to attain something like "perpetual human motion." At no hour of the day or night, under the new seven-day working week, is any factory, shop or government enterprise idle. At the same time, every worker has a full 24-hour rest period every five days.

According to the government, the new system of working hours has resulted in increased productivity, and has actually given the workers more repose and time for recreation than when only Sundays were observed as days of rest.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Fixing It Up

The minister called at the Jones' home one Sunday afternoon, and little Willie answered the bell.

"Pa ain't home," he announced. "He went over to the golf club."

The minister's brow darkened, and Willie hastened to explain: "Oh, he ain't gonna play any golf. Not on Sunday. He just went over for a few highballs and a little poker."

Undecided About Franchise

Women in Switzerland Not Particular About Having Vote

The women of Switzerland cannot make up their minds as to whether they want "votes for women," or not. Their argument is that they took petition for suffrage in an imposing procession, to the Bundespalast, at Berne, and they assembled in the same city to found a "League Against Political Suffrage for Women." Their chief argument is that politics are detrimental to the harmony of family life and social intercourse. They hope to improve the position and lot of women by social reforms not connected with, or depending on politics.

Cause Of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain, and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Teach Aviation In Schools

School children in Prussia are to be initiated into the mysteries of aviation. The Prussian Minister of Education has ordered that classes dealing with aeronautic problems be added to the curriculum of all public schools. In schools with workshops, the pupils, in addition, are to be advised and assisted in the construction of models of all kinds of aircraft.

Vicar: Your husband has been ill? Parishioner: Yes, he's been very bad. I do my best to please him but nothing seems to satisfy him.

Vicar: Is his condition critical? Parishioner: It's worse than that; it's abysmal!

"Do Not Hesitate To Try It"

"Your Vegetable Compound is a good medicine. Anyone who is in poor health should not hesitate to try it. When I was taking the Vegetable Compound I tried the sample Liver Pills I found in the package. I have taken them every night since and I can feel myself improving. I am so thankful for good food do me that I have told several women about it."—Mrs. G. W. Postle, 263 Huron St., Stratford, Ontario.

COL. BARKER, V.C. LOSES HIS LIFE IN AIRPLANE CRASH

Ottawa, Ont.—A national hero whose fame in the air was known throughout the world during the Great War, is dead. Lieut.-Col. William George Barker, V.C., D.S.O., M.C., one of Canada's greatest war-time pilots, was killed when a new commercial biplane he had taken "up for a flip" crashed to earth.

Scarcely 10 minutes after he took off from the Rockcliffe aerodrome in the two-seater, a Fairchild "plane" brought here for inspection by government officials of the Department of National Defence, civil aviation branch, the body of the gallant birdman lay in the shore slush of the Ottawa River, almost every bone shattered. The "plane" was a tangled wreckage.

An official board of inquiry, composed of three members of the civil aviation branch, has been set up to investigate the accident and attempt to determine its cause. To some among the many persons who were witnessing from the ground the colonel's last flight, it appeared the engine stalled as he pulled the machine into a steep climb.

Colonel Barker was flying at an altitude of 200 feet when the engine gave off a tremendous roar as the pilot pulled the throttle wide open and swooped upward.

After a climb to 150 feet, the "plane" faltered, hung suspended momentarily and then like a wounded bird plunged headlong to earth.

Life was extinct when horrified eye witnesses reached the wreckage. The man who came through scores and scores of hectic war combat with his life, although twice wounded, had apparently been killed instantly.

While Col. Barker was president of the Fairchild Aviation Corporation of Canada, manufacturers of the "plane" in which he met death, he was not putting the glistering new machine through its test paces when the tragedy occurred.

D. Campbell Shaw, Fairchild test pilot, was here for the demonstration. He said that while Col. Barker had been flying recently, he did not wish him to go up. One of the colonel's arms was almost useless owing to his war injuries.

The machine was in perfect shape and the controls responded readily, said Shaw, who flew the "plane" here from Montreal. Previously Capt. Shaw had flown the "plane" from New York City to Montreal and a half hour before the Fairchild Corporation president took the two-seater aloft, Capt. Shaw had put it through the paces of varied aerobatics.

It was the first time Col. Barker had sat at the controls of a machine of the type and other Fairchild officials suggested he might have miscalculated the power of the engine to drive the machine in a climb.

The war record of the dead aviator, which included the shooting down of 52 enemy planes and possibly others unlisted officially, was exceeded only among Canadian fliers by Col. W. C. Bishop, another Victoria Cross winner.

He is survived by his widow, formerly Miss A. Smith, of Toronto, and their seven-year-old daughter, Antoinette.

Installing Teletype At Flying Field

Instructions For Work At Moose Jaw Received From Ottawa

Moose Jaw, Sask.—Arrangements have been made for the installation of teletype equipment at the Moose Jaw flying field and work has commenced. D. C. Coons, superintendent of Canadian Pacific Railway Telegraphs, and D. McLean, Western Canada Airways, visited the flying field last week.

Instructions to install the teletype were received from Ottawa and the machine will be on the Saskatoon-Edmonton circuit and hooked from Winnipeg to Calgary.

The teletype is a self-recording telegraph machine, and weather reports and other matters of interest to pilots will be available at the hangar.

W. N. U. 1929

Briand Takes Gloomy View

Head Of French Naval Delegation Looks For Early Breakup Of Conference

London, England.—Aristide Briand, head of the French naval delegation, maintains that the five-power conference will not last more than another fortnight.

The French view is that a five-power treaty will result but cover only technical questions amounting to a preliminary convention on which could be based a later League of Nations gathering to consider disarmament on land, sea and air.

"I have finished my role," he said. "And tomorrow the whole thing will be handed over to the delegations."

Meanwhile, in spite of official optimism the decisive point of the conference has now been reached and it centres almost entirely round France's insistence that her figures cannot be seriously reduced. In this connection, Mr. MacDonald has great faith in M. Briand's power to effect a compromise which will allow reductions; but M. Briand, it is recognized, will not dare to do anything likely to be rejected by the French chambers.

While Mr. MacDonald does not want to see the isolation of France, even if she does persist in her present attitude, this will be the inevitable outcome unless greater progress is made towards finding a solution of the difficulties still to be overcome. Officials state that they are pleased with the progress so far made, but Labor members are telling the Prime Minister they are not.

Seeking Tariff Changes

Liberal-Progressives Of Manitoba To Interview Minister Of Finance

Ottawa, Ont.—In view of the fact that the federal budget is expected to be brought down before the close of the month, the Liberal-Progressives of Manitoba have appointed a delegation to interview Hon. Charles A. Dunning, Minister of Finance, and recommend tariff reductions.

The Liberal Progressives have made a close study of the tariff as it affects the agricultural industry of the province and will make specific recommendations for tariff reductions. It is believed that they will ask that the duties be cut on motor trucks, kitchen utensils, paints and varnishes and several other commodities.

School Act Amendment

Display Of Religious Emblems Prohibited In Saskatchewan Schools

Regina.—Without amendment of any kind, the bill proposing to prohibit the display of any religious emblem or the wearing of a garb of any religious denomination by teachers in the public schools of the province, passed through the Saskatchewan Legislature, and now only awaits royal assent to become law. The measure, however, will not come into effect until July 1 next.

Practically no discussion took place when the bill was in committee of the whole. While there were a few interchanges across the floor of the House, very little debate took place while the bill was under consideration.

Prize Winners At Manitoba Fair
Saskatoon, Sask.—Manitoba and Alberta exhibitors captured all first prizes in judging, March 11, at the annual Saskatchewan Winter Fair. Of the eight classes passed on by the judges, Manitoba stockmen carried off eight of the first awards and Alberta took the remaining four.

Check On Orientals
Victoria, B.C.—An Oriental survey, like that conducted several years ago, will be recommended to the provincial legislature by its agriculture committee. The survey will be for the purpose of ascertaining the progress of Orientals in agriculture.

British Army Estimates Cut
London, Eng.—British army estimates for 1930 total £40,500,000, a decrease of £600,000. The total net on establishment, exclusive of India, is £48,000 as compared with £50,500 in 1929.

A Mauritius stamp, printed "Post Office" instead of "Post Paid," commanded \$20,000 at a stamp sale.

WHEAT POOL HEAD

A. J. McPhail, president of the Canadian wheat pool, recently returned from a wheat conference in England.

Funds For Investment

Americans Are Anxious To Invest In Canadian Oil and Mining Ventures

Toronto.—"If this stock brokerage muddle was cleaned up at once, Canada would develop more prosperity in mines and oil projects this summer than was witnessed during the height of the activity last summer."

This is the view expressed by John M. Edwards, the Boston financial expert in the Toronto newspapers on the occasion of his visit here to investigate certain prospects his big organization had under way in Canada for this spring.

A great deal of Boston and New York funds had been earmarked for investment in oil and mining ventures to be started in different parts of Canada this year. Mr. Edwards is quoted as saying, "and with greater security for the public in the new stock exchange rules and amendments to the laws governing marginal trading, business should be on a very sound basis for these Canadian projects this year."

Coarse Grain Pools

Initial Payments On Remaining Deliveries Have Been Cut Down

Winnipeg, Man.—Initial payments by the Alberta, Saskatchewan and Manitoba Wheat Pools on remaining deliveries of coarse grains to country elevators have been cut down, the Pools have announced. The reductions amount to 35 cents per bushel for rye and ten cents per bushel for barley and oats.

Reductions are as follows, the Pool stated, basis for Fort William: Rye, basis No. 2, C.W., reduced from 50c. to 45c. Barley, basis No. 3, C.W., reduced from 50c. to 40c. Oats, basis No. 2, C.W., reduced from 50c. to 40c. Instructions were wired to agents of the Pool last night, following decision at a board session recently.

At the close of the market recently, prices on Winnipeg exchanges were as follows: Oats, No. 2, C.W., 53½c. Rye, No. 2, C.W., 54c. Barley, No. 3, C.W., 46½c.

Another Trip Planned For Graf Zeppelin

Commander Of Dirigible Outlines Coming Trip To America

Berlin.—The Graf Zeppelin, veteran of a flight around the world, will pay a 48-hour visit to the United States next May, Dr. Hugo Eckener, commander of the dirigible states in an interview.

Eckener outlined for the first time the complete itinerary of his forthcoming trip to the Americas, which will start probably between May 12 and 15.

Leaving Friedrichshafen, the Graf will make a 20-hour flight to Seville, Spain, and thence proceed directly across the south Atlantic to Rio de Janeiro, Brazil, in about 75 hours.

From Rio the dirigible will fly northward 20 hours to Pernambuco, Brazil, where a special mooring mast will have been built and preparations made for refuelling.

After remaining at Pernambuco 24 hours, the Graf will make a three-day cruise via Jamaica, Haiti and Havana, Cuba, to Lakehurst, N.J., where it will stay two days.

From Lakehurst, a 50-hour flight will take the Zeppelin back to Seville, after which it will return to Friedrichshafen.

Start Campaign For Indian Independence

Ghandi and His Followers Begin March To Jalapur

Ahmadabad, India.—Inaugurating their campaign for complete Indian independence, the Great Britain Mahatma Ghandi, 61-year-old Nationalist, and 79 of his disciples have started their march to Jalapur, where the British Crown will be enacted.

Twenty thousand persons gathered to watch what was the first step of the long-heralded "civil disobedience" espoused by the all-Indian National Congress at Lahore, in January.

Ghandi himself, despite his increasing age, walked with firm step. His appearance held recurring reports that he had been arrested by order of Lord Irwin, Viceroy of India. It was regarded as by no means sure, however, that he would not be taken into custody, in which case the 18 students of the National University, acting as an advance guard were expected to take up his program and continue the march ahead as propagandists.

First Application Received

Request Made For Exhibit Space At World's Grain Show

Regina.—First application for commercial space at the World's Grain Exhibition and Conference, Regina, July 25 to August 6, 1932, was received at the headquarters here, March 12.

The application follows closely the start made in the distribution of a large number of booklets by the offices, in which the announcement is made: "The Executive Committee has set aside a limited amount of space for the staging of commercial exhibits of interest to those engaged in the production and marketing of field crops."

Youngest Ocean Traveller

Beryl Brown, 18 months of age, youngest traveller ever to have made a trans-Atlantic trip alone, travelled half way round the world by the time she reached her mother in Red Pass, B.C. She came over on S.S. Minnedocia to St. John and thence by Canadian Pacific to her home. She is showing her doll to officials and newspapermen who came to see her in her sleeping car aboard the train.

DISCUSS THE COST OF LIVESTOCK PRODUCTION

Ottawa.—Investigation of the cost of producing livestock in Canada and the cause of wide price fluctuations were recommended by the conference of deputy ministers of agricultural departments, officers of co-operative agencies and producers here.

A proposal for a Royal commission to inquire into problems affecting the industry was dropped after prolonged discussion.

The conference re-affirmed the confidence of its members in the principles of co-operative marketing.

Organization of a committee to consider the problem of handling feeds at cost to eastern livestock areas was recommended.

Considerable time was taken up with hearing the problems of the poultrymen and considering ways and means to ameliorate their conditions. The stock raisers difficulties were aired, and a general discussion took place, participated in by most of those present. The greatest handicap to the livestock industry at the present time was the lack of confidence in marketing methods, it was pointed out, and improvement of these must take place before any betterment could ensue.

The apparent disregard of the middlemen for the interests of the primary producers was the cause of considerable dissatisfaction among the farmers, declared W. A. MacKay, of the Canadian Livestock Co-operative. It was clear, however, that in some respects the producers had been careless of inefficiency, but this, he thought, could be overcome by a campaign of education in which all interests could effectively co-operate. He suggested standardization of products, strict grading and an aggressive marketing policy. At the same time it was urged that the same standards applying to Canadian products be made to apply equally to imported products.

Recognition and support of co-operative marketing was urged. But the matter of who should take the lead in developing co-operative organizations found a division of opinion among those present. F. D. Auld, deputy minister of agriculture for Saskatchewan, urged an appropriation by the Federal Government for expenditure by the provincial governments. The latter were more in touch with the producer and in most provinces worked effectively with him. The Alberta attitude was to aid operation, he said, but to keep hands off organization, and this was true also of Manitoba, Mr. Auld said. The request of the livestock co-operative for demonstration packing plants developed considerable discussion, but failed to get support beyond the reminder that there is at present no impediment to private organizations attempting such work. The conference recommended an enquiry as to the practicability of such a scheme.

Detroit May Dismiss All Alien Teachers

Mrs. Lindbergh Would Be One If Bill Is Passed

Detroit, Mich.—Following the lead of the city council, which recently ordered about 1,700 aliens employed in various city departments discharged, the board of education considering dismissing 786 teachers who are aliens or non-residents of Detroit.

Mrs. Evangeline Lodge Lindbergh, mother of Colonel Charles A. Lindbergh, is one of those who would be discharged if the resolution before the board of education is passed.

Free Sale Of Empire Goods

London, Eng.—The Army, Navy and Air Forces institutes are taking active steps to encourage the sale of home and Empire products in their canteens, said the Rt. Hon. Thomas Shaw, secretary of state for war, when questioned on the subject in the Commons. Mr. Shaw quoted the canteens' quarterly price list and spoke of special posters and leaflets which were issued to draw attention to the advantages of purchasing Empire goods.

Stony Plain and District

Mr and Mrs George Light were Sunday visitors with Mr and Mrs F G Moss.

Mr and Mrs John Opgordon of Halkirk are visiting Mrs Michael.

Mr and Mrs Frank Lutes are visiting Mrs Michael.

Mr and Mrs C Thompson and children, of Edmonton, are visiting with Mr and Mrs J F Clarke.

Mr and Mrs M Comisarow and family were visiting with friends in Edmonton on Sunday.

Mr Otto Oppertshanser, of Roehrfort, was a Sunday visitor in Stony.

Miss Mahelle Clarke, paying teller at the local bank, is on vacation at present.

Mr and Mrs Dave Roberts, Edmonton, were Sunday visitors at the Albert Fischer home.

Insp. Fyfe gave the local Public school a visit on Monday.

Mr George J Bryan, solicitor for Mr Yurko Capp, has received definite advice that the Crown has filed a stay of proceedings of its action against Yurko Capp covering the charges relative to the burning of the M Renczeski grain.

There was a good attendance of U. F. members Saturday afternoon at the meeting of the Stony Plain Local, when the following officers were elected: C R Propp, Pres.; Philip Miller, Vice-Pres.; G Herbert, Sec.

Lock Your Car when in City

"Lock your car!" That's the advice of Edmonton City police traffic officers who have investigated cases of car thefts nearly every day. Edmonton's geographic position makes it difficult for car thieves to get their stolen autos far, so that the greatest trouble police have in regard to car thefts is that of joy riders. Theft cars are found usually within 24 hours but with their gasoline tanks dry and showing signs of wear and tear as a result of fast driving.

Spruce Grove News

A Young People's social evening will be held in the United church tomorrow (Friday) Evg. the 21st, under the auspices of the Ladies Aid.

Mr Jack Shenfield, accompanied by Mr Macdonald, spent a social evening with Mr and Mrs McLeod last Wednesday evening, the 12th inst.

Mr and Mrs Essery were Sunday visitors with Mr and Mrs Connolly.

Mr Geo Oppertshanser, the Essex agent, paid the Grove a visit yesterday.

Mr and Mrs Louie Gobel of Garden Valley were Sunday visitors with friends at the Grove.

Miss Lillian Dufrencon, formerly of Legal, is at present attending Mrs Connolly.

Mr and Mrs H McLeod, accompanied by Mr and Mrs Parrish, Edmonton, motored to the Grove on Sunday and called on Mr and Mrs Wm McLeod.

Mr Jack Nichols, manager of Spruce Grove Cafe, has erected on his portal one of the all electric Neon signs.

"Sport" McKeen is getting a couple of his good boxers in shape for the big tournament in Edmonton on the 31st.

Spruce Grove was well represented at the P Baron sale on Monday last, including the trio which motored out early in the day consisting of Joe Brox, Louie Javorsky and H Kuhl.

John H Miller and wife, of Lacombe, were Sunday visitors with Mr and Mrs Joe D Miller.

Pastor Eberhardt conducted services Sunday afternoon at Peace Lutheran church.

Saturday was Shamrock Ham day, when a demonstration on these hams was given in the afternoon at McKeen's Meat Market, which proved quite an attraction.

Considerable high grade barley is being shipped from here at present to the drouth areas. The elevators have been paying a premium on the good stuff.

On Monday next, Mar. 24, Mr Cyr is holding a sale at his farm, Sw. 15-53-26W4.

The funeral took place on Thursday last of Mrs Theresa R McKay, an old pioneer of this district, at the age of 83 years. Rev D G McQueen officiated at the services. She is survived by her husband; 4 daughters, Mrs W E Bristow, Mrs A Dandeneau, Mrs H G Hagen and Miss T MacKay; 3 sons, Messrs Gilbert, Murray and Jasper, all of whom reside in this district.

Across Canada and Back

A three week tour of Canada by Canadian Pacific and Windermere is by automobile through some of the most magnificent scenery in the world. Return trip is also by Canadian Pacific Railway and takes in the famous trans-mountain railway journey to Field, Lake Louise and Banff, thence north to Edmonton and by steam to Winnipeg and Fort William. From the latter city by Great Lakes steamship to Detroit, which practically ends the trans-continental journey. A variety of means of transportation are secured. Numerous stops are made for sight-seeing in the many noted beauty spots, national parks, experimental farms, forestry stations, larger centres of population and provincial capitals.

ATTENTION LANDS

PUBLIC NOTICE is hereby given that an Auction Sale of School Lands will be held in the Province of Alberta, at the place and on the date hereof mentioned—
EDMONTON—Thursday, April 30, 1920, at 9 o'clock A.M.

The lands to be offered comprise only those which have reverted to the Crown owing to cancellation of former sales and which have been respected and valued at \$7 or more per acre.

The lands will be disposed of subject to the usual terms and conditions pertaining to the sale of School lands at public auction.

Where any parcels of land are not sold the cultivation privileges for the year 1920 will be offered at time of sale and disposed of to the highest bidder, in accordance with the terms and conditions which will be announced at time of sale.

TERMS OF PAYMENT.

One-tenth in cash at time of sale, and the balance in eighteen, equal annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid, except in cases where the area of the land sold does not exceed forty acres, in which cases the terms of payment shall be one-fifth in cash and the balance in four equal annual instalments, with interest at the rate of six per cent per annum; overdue payments, whether of principal or interest, to bear interest at the rate of seven per cent per annum.

For Sales boundaries, other places at which sales will be held, for further particulars are posters posted in postoffices, or apply to the Agent of Dominion Lands for district.

Lists of Lands to be offered may be had on application to the Commissioner of Dominion Lands, Department of the Interior, Ottawa, Ontario, or to any agent or sub-agent of Dominion Lands in the Province of Alberta.

By order,
J. W. MARTIN,
Commissioner of Dominion Lands,
Department of the Interior,
Ottawa, 1920.

English Lutheran service in Stony Plain next Sunday, 7.30 p.m.
United Church service every Sunday Evg. at 7.30.
Services in St. Philip's Church next Sunday, 11.30 a.m.

A Liberal Meeting on Monday

A meeting of Liberals will be held in the town hall on Monday evening next, to elect delegates to the Provincial convention in Calgary the latter part of this month. The chair will be taken by the president F. J. Francy. Addresses will be given by Messrs W. R. Howson and R. E. McLaughlin of Edmonton. As the seating capacity is limited, you'll need to come early.

How the Sales Go

Auctioneer Zucht held a successful sale on Friday for Conrad Gabel at Rosenthal. No farm sales having been held for some time previous, the bidding was keen.

A record crowd greeted Auctioneer D. Brox when he opened proceedings at the P. Baron sale Monday. Much nery sold off rapidly. There didn't appear to be any great demand for horses, but the rest of the livestock brought good prices, including a dozen "thoroughbred hens."

Sporting Notes

The bouts at the local boxing academy last Friday night pleased the good crowd of fans in attendance. Among those on the bill for tomorrow night are: Alkali Pete, in the paper weight class; the Katzenjamer Kids in the 125-lb. contest; and Willie Kay, the well-known sprinter.

There seems to be a misunderstanding in sporting circles concerning the departure from Stony Plain of Mr. E. Heichen. The Sun is informed Eric will be with us until the midsummer holidays, as he is retaining the position of superintendent of the School Bus line until that time.

A meeting of the Hockey Executive is called for this evening.

Duffield Doings.

On Tuesday next, the 25th, the local Women's Institute will hold its regular monthly meeting, with Mrs. W. J. Taylor, Mrs. Lent and Mrs. Roberts as hostesses. The program will be: Roll call—with an Irish quotation. There will be a paper on "The Life of St. Patrick," by Mrs. McGuire and a reading by Mrs. Coates. Community singing.

Mr. and Mrs. Pidgeon, of Stony, were Sunday visitors here.

Auctioneer Washburn will conduct a sale on Monday next, the 23rd, for Mr. W. J. Bailey, who is leaving the district.

For Sale. 5-Roomed House in Stony Plain, with full basement. Apply John B. Miller. 02

For Sale. 75-acre farm, the NW 24 52 28w4. Apply to Jacob Enders, Stony Plain. 00

For Sale. White Leghorn Setting Eggs, from R. O. P. stock \$1.25 setting. Mrs. W. Hopkins.

For Sale. Bees—All parties desiring a start of the best Italian bees, to be delivered next Spring, in May, should have their orders booked not later than the month of March. J. Q. Adams, Apiarist, Holborn. 99

22—August Burger's Sale.
25—Ida Willie's sale
APRIL—
3—Sale in Edmonton, of School Lands.
3—Town Council meets.
18—Good Friday.

Garden Valley

A fire which caused quite a loss among the stock on the farm of Wm. Trautman occurred shortly before one o'clock on Sunday morning. The fire, which was not noticed by any of the inmates of the house until the barn roof was caving in, appears to have started in the horse stable and spread to the cow barns.

The horse barn was a total loss, with 20 head of horses, 11 double sets of work harness and accessories, and 24 tons of hay.

Efforts were made to release the inmates of the cow barn, and these were successful, with the exception of a heifer and a purebred bull. The fire spread to the implement shed, and the contents of this were consumed, with the exception of a binder.

The most of the 24 tons of hay consumed by the fire had just been hauled, a short time ago, from Mr. Trautman's farm at Holborn, and was to have been used while putting in the crop on the Garden Valley farm.

The loss is estimated at about \$9000, with no insurance carried but a nominal amount on the buildings. The inspector from the Underwriters was out on Monday, appraising the damage.

Hansen's Corners.

Farmers of this district are fixing up their gang plows and expect to be using them soon.

Mr. F. Wilkin is arranging to rent 200 acres from Big Jim, to seed to oats.

On Thursday, March 6th, to the wife of Mr. Donald McDonald, a son.

Hansen's Corners expects shortly to be on the Air Mail Service route, with a special stamp for this P.O.

Mr. J. A. Young is recovering from his recent indisposition, and his friends are pleased to see him able to be around again.

Mr. Jean Facette expects to bring his tractor home in a few days.

Mr. John Kotscherofsky has purchased a farm in Hansen's Corner district.

Mr. H. L. Stirling will be returning to Jasper, in a short time.

"Lord Raspberry" has gone to Edmonton, for treatment.

Mr. Paul Clausen is recovering from a kick from a mule.

A chap from this district went in to an Edmonton hospital the other day and asked a nurse how his friend Joe Brown was getting along, to which the nurse replied he was getting along fine; that he was convalescing now. "Well," replied the caller, "I'll just sit down and wait till he's thru, as I want to see him!"

Here and There

(488)

Smashing all known records for the 120 miles of heavy gauge that constituted the International Dog Carted race at Oshawa recently, Fraile St. Colander followed in to the fourth place. In that event when he lost Frederick Stouls to the top by a margin of five minutes flat in eleven hours, one minute and 27 seconds for his whole distance. St. Colander won \$1,000 cash and a gold cup. There were twelve contestants in the race.

The western branch lines construction, sponsored by the Canadian Pacific Railway for 1950 and continued at headquarters of the company, presently will include an expenditure of \$11,000,000, said D. C. Coleman, western vice-president, interviewed at Winnipeg. In addition to this sum, ten million dollars will be spent on improvements designed to increase the capacity and efficiency of lines operated in the west.

Purchase of the Algonia Eastern Railway by the Canadian Pacific Railway is announced by E. W. Conroy, chairman and president of the latter company. The property runs between Little Current and Sudbury and its purchase is subject to approval of the board of directors of the Canadian Pacific and to ratification by shareholders at the annual meeting to be held May 7 next.

For several years Canada has led the world in aerial surveying and not year consolidated that leadership by applying for the first time in any country, aerial methods to geologic reconnaissance and transportation. Around 70,000 square miles were covered by aerial photography last year by the Royal Canadian Air Force and the Canadian Government Department of the Interior.

Canadian investments abroad at the end of 1928 totalled \$1,579,074,000, according to a recent official estimate. Of this amount \$874,626,000 is invested in the United States; \$131,915,000 in Great Britain; and \$572,533,000 in other countries.

Available horsepower in Canada is 20,187,000 horse power under conditions of ordinary minimum flow and 33,118,000 horse power under conditions of ordinary six months flow. Only about 6,000,000 horse power has been harnessed.

The first Canadian woman senator, Hon. Cairine McKay Wilson, is the mother of eight children, raising in age from 20 to 4. Prior to the appointment there was doubt as to whether women could legally be appointed to the Senate and the question was carried to the Privy Council which held that women were persons and therefore entitled to sit.

About 13 1/2 million meals a year are served to travellers by the Canadian Pacific—that is, to say, 37,000 meals every day or 254,000 every week. This gigantic total is made up of about 4,200,000 in dining cars and station restaurants; 4,450,000 on Atlantic Pacific steamships; 1,350,000 on inland and coastal steamers; and 3,600,000 in the company's hotels and baggage camps.
